

## FLORIDA MARLINS BALLPARK

When complete in the Spring 2012, this state-of-the-art Major League Ballpark will encompass 966,929 SF and feature 36,600 seats with a three panel operable roof system that will cover the playing field and seating terraces. The \$450 million sporting venue, which will serve as home to the Florida Marlins, will be situated at the former site of the Orange Bowl in downtown Miami.

S2O Consultants, Inc. has been retained by the Florida Marlins and The Levy Restaurant Group to program, plan and design all the food and beverage facilities associated with the ballpark. This will include the commissaries, pantries, main and club kitchens, concessions, bars, and buffets.
